"The proposed development fails to achieve a high standard of design to respond to the context of the site and the locality and would appear as an unsympathetic addition to the host dwelling and would appear visually intrusive within the street scene. **EHDC Decision:** Refused. "The proposed development by reason of its size and scale, cumulatively with buildings previous extensions, would result in a disproportionate addition to the original building and would amount to inappropriate development in the Green Belt. The proposal would also result in further harm by loss of openness. Very special circumstances have not been identified that would clearly outweigh the harm by reason of inappropriateness, and other harm. The proposal would therefore be contrary to Policy GBR1 of the East Herts District Plan 2018 and the National Planning Policy Framework (July 2021)" & "The proposed dormer window, by reason of its size, siting, form and design, would not be modest in scale or of limited extent and would dominate the roof of the dwellinghouse and be out of keeping with and detrimental to the character and appearance of the property, contrary to policies DES4 and HOU11 of the East Herts District Plan 2018."
