The proposal would cause less than substantial harm to the significance of the asset and the setting of the neighbouring listed buildings and would fail to preserve or enhance the character and appearance of the conservation area and cause less than substantial harm to its significance. No public benefit has been demonstrated to overcome this harm. Therefore, the proposal would be contrary to Policies DES6, HA1, HA6 and HA7 of the East Herts District Plan 2018 and Sections 12 and 16 of the National Planning Policy Framework."

3/24/0495/HH **5a Bluebell Walk, CM21 0JQ**
Raising roof by half a storey and 7 new dormer windows to create additional storey to existing dwelling
STC Comment: Objection. We urge EHDC to consider objections from neighbouring property to ensure scale of this proposed development is acceptable
EHDC Decision: Refused. The proposed raising of the roof and insertion of dormer windows, by reasons of the design, size and positioning would add a dominating and

incongruous addition to the host property to the detriment of the character and appearance of the host property and that of the surrounding area. The proposal would fail to achieve a high standard of design and would be contrary to the grain and pattern of development of the local area, contrary to Policies DES4 and HOU11 of the East Herts District Plan 2018 and the National Planning Policy Framework, “The proposed extension, by reason of its positioning and insertion of the dormer windows, would have a detrimental effect upon the amenities of the adjoining properties, by reason of the impacts on overlooking and privacy, and would thereby be contrary to Policy DES4 of the East Herts District Plan 2018.” & “The proposed development is considered to be inappropriate development in the Green Belt, failing to comply with the exceptions outlined under paragraph 154 of the NPPF. The proposed additional floor would result in a structure 'materially larger' than the original dwellinghouse and has a detrimental impact on the openness of the Green Belt, both visually and spatially, resulting in 'any other harm'. No very special circumstances have been presented to clearly outweigh the identified harm. The development therefore is unacceptable in principle as it fails to comply with policy GBR1 of the East Herts District Plan and Section 13 of the NPPF.”

3/24/0500/FUL Barn to North of Redricks Lane, Opp Redricks Farm, CM21 0RL
Change of use of agricultural building to create 1, 4 bedroomed dwelling. Erection of side and rear extensions, external alterations, erection of air source heat pump and widening and alterations of entrance to create 3 parking bays and removal of existing eastern access

STC Comment: No objection

EHDC Decision: Refused. “The proposed scheme would constitute a re-use of a building, as well as a material change in the use of land. However, the proposal would harm the openness of the Green Belt, and result in encroachment into the countryside, contrary to paragraph 155 of the National Planning Policy Framework (2023). In addition, the proposed extensions by their size, scale, volume, siting and design, constitute inappropriate development and is by definition harmful to the openness of the Green Belt. No very special circumstances nor other considerations have been identified to outweigh the harm to the Green Belt. Therefore, the proposed development would be contrary to Policy GBR1 of the East Herts District Plan (2018), and Section 13 of the National Planning Policy Framework (2023).” & “The proposed scheme would domesticate the appearance of the site and result in an incursion into the countryside. There would be an adverse impact upon the character and appearance of the site and the surrounding rural area. Therefore, the proposed development would be contrary to Policies DES2 and DES4 of the East Herts District Plan (2018), as well as Section 15 of the National Planning Policy Framework (2023).”
